Sunday, 3 a. m.—Motorcycle wrecks at Irvine. Two San Diego youths injured. Sunday, 8:30 a. m.—Fullerton auto crashes into Garden Grove machine filled with Epworth Leaguers. No injuries.

### Condition of Woman Injured Friday Serious

The condition of Mrs. Ann Swartz, who lives on Laguna avenue, Tustin, and who was injured in an automobile crash Friday noon, is today quite serious. Mrs. Swartz is suffering severely from the shock of the accident and the injuries she received. While the injuries in themselves might not have harmed a younger person much, they have proven serious in Mrs. Swartz's case.

Mrs. Swartz was turning into her driveway in her automobile when her machine was struck by one driven by J. B. Hazlett, manager of the Oxford Hotel, San Diego. Hazlett's machine was wrecked. He and his wife and three others were thrown out of the machine, which struck a gum tree. Mrs. Hazlett had her head slightly cut. The Hazlett party was brought to Santa Ana by Under Sheriff Inman.

### Auto Turns Over; San Diego Man Killed

Friday afternoon about 3 o'clock an automobile turned over three times on the state highway north of Gockley's place, three miles north of San Juan Capistrano. Alfonso H. Carpenter, aged 65, of San Diego was killed, and his wife and grandson were badly injured.

Carpenter was driving to Los Angeles from San Diego, where he had been living with his son, H. H. Carpenter, manager of the Broadway Theater. The grandson, Howard, aged 9, says that he knows of no reason why the accident happened. W. N. Congdon, garage man of San Juan Capistrano, however, looked the tracks over carefully with an automobile which was not far behind Carpenter's machine when it went over. It appears that Carpenter was driving at a fast rate of speed, and turned to the left to pass an automobile going the same direction as was, northward. He turned back to his right side of the road, but, according to the tracks, made that turn so quickly, almost at an angle of forty-five degrees. On examining the tracks Saturday, Carpenter's son concluded that a rear wheel went off the pavement deep into soft earth, and that it threw the machine sharply to the right. The car turned over three times before it came to a stop.

The boy and M. Carpenter were taken to the Santa Ana Hospital after a physician had examined them. Mrs. Carpenter was unconscious for a time. Her face was bruised and cut. The boy had his collar broken.

Mrs. Carpenter's condition has

### AIDS WRECK VICTIMS, STARTS HOME, STRIKES CYCLIST UNAVOIDABLY

Among the first to reach the victims of the automobile accident near Capistrano in which A. H. Carpenter of San Diego was killed and two others badly injured, was Frank Biggs, delivery car driver for the Roehm-Sylvester Company, this city.

After rendering all the assistance he could, Biggs started for home. Always a careful driver, the sight of the Capistrano wreck made him more careful than ever.

He has not driven very far before he came upon a barber supply automobile turned over in the road. Barbers' tools were scattered over the road. Inquiry revealed the fact that no one had been hurt in the accident.

Biggs started up again. Near Tustin he came upon the automobile in which Mrs. Ann Swartz was painfully injured.

Biggs became still more careful. He drove along at a very reasonable rate of speed. He steered his car over to the right of the highway in order to be as much in the clear as possible.

When he was inside the city limits on East First street he began to congratulate himself on his good luck in getting back home without having an accident.

When about two blocks east of the Santa Fe tracks on East First a machine with exceedingly bright lights approached from the west. Biggs steered to the right.

Suddenly there was a crash. Biggs' right fender struck a bicyclist. The man on the wheel was hurled to the ground.

Biggs stopped. He rendered what assistance he could. An examination revealed that the bicyclist, a Mexican, had been slightly injured. The bicycle was damaged. The Mexican got up and walked to his home.

Biggs states that there were no lights on the bicycle with which he collided.

### SWALLOWS BICHLORIDE BUT 'GETS WISE' IN TIME AND SAVES SELF

Cyrus Harbour, a transfer man at Orange, on Saturday afternoon thought he was swallowing two calomel tablets when he prescribed for himself. He happened to look at the label on the box. He saw he had taken bichloride of mercury tablets. He rushed to a doctor, was given an emetic and his life was saved. But for his presence of mind he might have been killed by the deadly poison.

## BULLETIN RUSSIANS ORGANIZING GREATEST ARMY WORLD HAS EVER KNOWN

SAN FRANCISCO, Dec. 27.—Russia is assembling the mightiest army the world ever saw, says Max Gouthican, a Russian student, today, arriving aboard the Tenny Maru. During the army's organization no man is permitted to leave Russia without a white ticket. Men in every walk of life, and young boys, are being forced to enlist. The Russians are building history's biggest fighting machine. Gouthican said that the war is nowhere near its end. He served with the Red Cross during the Antwerp siege. He saw artillery demolish schools and churches. He saw women and children bayoneted.

## RIVERSIDE WIND LIKE ROARING OF DISTANT SURF. STALLS AUTOS; AID APPEAL IS MADE

20 Cars Stranded By Roadside; Buried In Sand; Gale Worst In Years

RIVERSIDE, Dec. 27.—The terrific wind storm today continued. The gale is the most severe in several seasons.

The wind reached tornado proportions in the Wineville region.

Stalled motorists appealed to Mayor Ford for assistance, saying that the flying sand is threatening to suffocate them. Tops were blown off motor cars.

ONTARIO, Dec. 27.—There is no improvement in the condition of John Wisdom, of Highgrove, who was injured during last night's terrific sand storm eight miles east along the valley boulevard.

Twenty machines are stranded by the roadside, buried in the sand. The passengers were brought here.

Four Santa Anans, Mr. and Mrs. E. S. Morrow and Mr. and Mrs. H. T. Duckett, were caught in the worst of the storm that centered at Wineville, on the road between San Bernardino and Ontario. They were returning from a trip to Palm Springs on the desert, and had experienced some wind at several points of their journey, but it remained for the Wineville country to give them the real sensation of the Christmas vacation.

The wind was blowing—well, somewhere around a thousand miles an hour. At least, it looked like a thousand miles an hour, judging from the amount of dirt and small stones it was carrying. Morrow had a brand new car, and the stones went up against it, unmercifully, biting off paint until the car looks as though it was in the midst of an attack of the measles.

Excepting in lulls, they could not see a car's length ahead. Several automobiles were jammed in a cut, and the machines had to stand still and take their chastisement. The top of one car was ripped off.

"I have been in Montana blizzards, and I have seen some breezy breezes in my time," said Duckett, "but that wind out there at Wineville had them all faded."

A feature of the freak storm was that at Ontario, not far distant from Wineville, there was hardly any wind.

### SAYS JAPS IN L. A. ABSORB 'SAKI JAGS' THROUGH THEIR PORES

### 8 DIE AS STORM RAGES IN NEW YORK

### LATE WIRE NEWS

SAN BERNARDINO, Dec. 27.—Apparently brutally attacked, robbed and then left on the railroad tracks in the path of a Santa Fe passenger train, an unconscious well-dressed man was picked up by an engineer who brought his train to a stop at the outskirts of San Bernardino, early today. When operated on at the San Bernardino County Hospital the man died. He was about 30 years of age, wore a blue serge suit, white shirt and collar and black 7½ size shoes.

## CHARLES EDISON, son of Thomas A. Edison, is spending one-third of his time this winter operating his little music theatre on Fifth avenue, New York. Another third of his time he devotes to work in his father's laboratories. He is called the "repar man." His work is much in the nature of an efficiency expert, because his duties are to see to it that there are no imperfections in the manufactured products invented by his renowned father. The remaining third of his time he writes poetry under the nom de plume, "Tom Sleeper," and music, and plays the gentleman; and it is said of him truly, that he really has a good time. Charles Edison is twenty-six years of age, and already has to his credit a valuable patent of his own invention for a part of an electric automobile.

### LOSING FIGHT WAGED

QUEENSTOWN, Dec. 27.—American friends and relatives of the Lusitania victims have fought a losing fight to have American bodies exhumed and sent home. A council of shopkeepers, saloonmen and one cabdriver declined the request on the ground that exhumation would imperil public health. The bodies were buried in rude caskets in a dreary graveyard one mile outside of Queenstown. The council opposed removing the bodies to ex-consecrated ground. Leading physicians testified that removal would not be dangerous.

## CHRISTMAS DAY RACING PROVES BIG SUCCESS

One of the most successful race meets ever staged at the Santa Ana race track by the Orange County Driving Club was held Saturday afternoon, Christmas Day. Close competition marked all the events. There was a good-sized crowd of fans on hand, in fact, one of the largest crowds that ever has turned out to a matinee here in recent years.

In the 2:40 event for green horses, Babe, owned and driven by S. Tenick of Simsbury, took the first of three heats in 2:40. Brownie, owned and driven by Fred Culver, took the second and third heats in 2:38 and 2:37, respectively.

The 2:30 mixed race first heat went to Black Diamond, owned by L. F. Clapp and driven by W. R. Murphy in 2:31. The second heat went to Laddie, C. J. Schultz's blind horse, in 2:29. The third heat went to Black Diamond in 2:29. This race was one of the closest of the afternoon and caused much excitement.

The third event of the afternoon, the 2:25 pace, went to Atlantic Fleet, owned and driven by Fred Cole, who took both heats, the first in 2:24 and the second in 2:23. This race was another very closely contested event and brought the fans to their feet.

The fourth event, a 2:20 trot, was won by Doctor S., owned and driven by Dr. H. J. Stevens, both heats being taken by him, the first in 2:19 and the second in 2:19½.

Beauty, owned by Mr. Smith, and Voco de Palo, owned by C. B. Willis, failed to show. Dutch, owned by Toney Burrell, who was slated to race the two first mentioned horses, ran a fast exhibition mile.

The Orange County Driving Club already is beginning to make plans for the next meet, which probably will be held some time in January.

I used it for eight or ten years and can recommend it for croup." Rowley Drug Company.—Advertisement.

## CHRISTMAS IS CELEBRATED AT COUNTY'S FARM

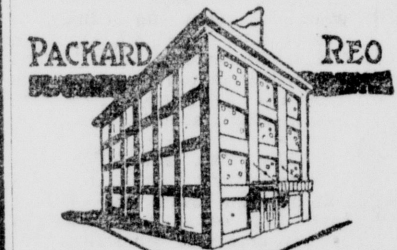

### HUNDREDS WILL TESTIFY RIGHT HERE IN CALIFORNIA.

San Francisco, Cal.—Some time ago I was in a nervous, run-down condition—a complete break-down. I read an advertisement of Dr. Pierce's Golden Medical Discovery in a San Francisco paper. I commenced using this remedy and it was but a short time until my appetite returned, my nerves were strengthened and my general health completely restored. I certainly recommend this remedy.

"We have had one of Dr. Pierce's Medical books in our home for a great many years."—Mrs. A. W. Cook, 53 Lucky Lane.

Friday afternoon and Christmas day was the most delightful period that the inmates of the County Farm and the patients of the County Hospital have known since the institution was established.

A splendid program was given Friday afternoon at the chapel and also in the hospital by the Christian Endeavor Union. Music, readings and a Christmas tree marked the celebration. Candy and other presents were given all of the inmates, patients and nurses. Christmas carols were sung by the high school quartet.

Many presents were received for inmates and patients. Sheriff Jackson sent out cigars for all of the men. The young women deputies at the court on Friday afternoon visited the farm and hospital, bringing with them good cheer and five gallons of ice cream, a genuine treat to the shut-ins and unfortunate.

Dr. Zaiser, superintendent of the institution, states that he has been asked by those at the farm and in the hospital to express their thanks to the many who remembered them at Christmas time.

A report of the C. E. visit more in detail follows:

On Friday afternoon the Christian Endeavorers shared some of the joy of Christmas time with the people of the County Hospital. A tree was placed in the chapel, and decorated early in the afternoon. Soon after 3 o'clock the chapel began filling, and soon only standing room was left. Before the presents were distributed, a program was given. First, all sang "Nearer My God to Thee," then Rev. Pyke led in prayer. Then the High School orchestra, under the leadership of Miss Ely, played several numbers. Miss Ranney gave a reading, "The Christmas Substitute." The High School boys' quartet sang "Holy Night," and "Little Town of Bethlehem," after which the orchestra played a couple of old songs, in which all joined. After the program the presents were given out, each person receiving a handkerchief and a box of home-made candy. At this time the quartet went into the hospital, where they sang for those who were unable to come to the chapel.

The presents and candy for this tree were furnished by the various intermediate and senior Christian Endeavor societies in Santa Ana, all of which were glad to do what they could to pass along the Merry Christmas time.

His batting average to date is .350. It is rumored that Ayres, second base, will sign up with Maine State League.

### WAR UPON PAIN!

Pain is a visitor to every home and usually it comes quite unexpectedly. But you are prepared for every emergency if you keep a small bottle of Sloan's Liniment handy. It is the greatest pain killer ever discovered. Simply laid on the skin—no rubbing required—drives the pain away. It is really wonderful.

Mervin H. Soister, Berkeley, Cal., writes: "Last Saturday, after tramping around the Panama Exposition with wet feet, I came home with my neck so stiff that I couldn't turn. I applied Sloan's Liniment freely and went to bed. To my surprise, next morning the stiffness had almost disappeared, four hours after the second application I was as good as new." March, 1915. ## HUGE CARNIVAL NEW YEAR'S EVE OPENS FAIR

SAN DIEGO, Dec. 27.—Cheering the old San Diego exposition into history with the outgoing year, and at the same time welcoming the new San Diego exposition of 1916 in with the new year, a gigantic celebration will be held in the exposition grounds New Year's day with more participation, it is predicted, than joyously heralded the opening of the present exposition a year ago.

The celebration officially is the closing of the Panama-California exposition after a full year's successful run, but the closing will be purely imaginative for the present exposition will swing with the hands of the clock into the new year and the Panama-California International Exposition, to be launched for another year's continuance.

Carnival, with the bursting of thousands of dollars' worth of aerial bombs, the shrieking of the largest siren in the world, every show on the Isthmus free, a monster cabaret in the Cristobal Cafe and endless specialties about the grounds, will feature the celebration of the night of December 31. Some formalities will take place in the afternoon of that day, however. The principal item in these will be the official presentation of diplomas to the various branches of the government service in appreciation of their assistance toward the success of the exposition, including the navy, cavalry, artillery and marines.

To aid in the celebration the exposition authorities have appropriated \$10,000 for the supply of additional zip. An item in this is 500 aerial bombs, the largest ever made, it is claimed, and a salvo of fifteen of these at 6 p. m. will start the evening's frolic. Following this, a salute of forty-eight bombs will be fired to the Union, one for each of the forty-eight United States of America.

### FORMER SANTA ANAN IS GIVEN PROMOTION

Ray A. Whidden, graduate of the Santa Ana High School and a son of Mr. and Mrs. G. A. Whidden of this city, received the best kind of a Christmas present—a promotion. Whidden today, Ray was called to the head office at Indianapolis and was notified that on January 1 he is to take charge of an enlarged territory, including parts of Illinois, Missouri, Iowa and North Dakota and all of a, sseota and Wisconsin. He will have twenty-four traveling men under him. Incidentally the promotion brings an increase in salary.

### MANY TROUBLES DUE TO WEAK KIDNEYS

"It's no use advertising a medicine unless the medicine itself is good enough to back up the claims you make for it," said Rowley Drug Co., the popular druggists, to a Register man. "On the other hand it is a pleasure to sell a medicine when our customers come in afterward and tell us how much good it has done them. And that is why we like to sell and recommend Solvax, the great kidney remedy. Ever since we first introduced Solvax in Santa Ana our clerks have been so busy selling it that we have a hard time keeping a sufficient stock on hand. We have so much faith in this article that we are going to guarantee it in the future and will return the money to any purchaser of Solvax whom it does not help. This may seem rash but our customers have said so many good words in its favor that we do not expect to have many packages returned."

This shows great faith in Solvax. It really is a most unusual medicine because it overcomes the worst cases of kidney complaint by removing the cause. It goes straight to the seat of the trouble. It soaks right in and cleans out the kidneys and makes them pass off all uric acid and poisonous waste matter that lodges in the joints and muscles, causing rheumatic pains; soothes and heals the bladder and quickly ends all such troubles.

Nothing is more uncomfortable or hurts a person's perfect enjoyment of life more than troublesome kidneys and their attending evils. Use Solvax and get your full measure of benefit out of life.—Advertisement.

In addition to having steam heat, it is quite convenient to have hot water in an office. Steam heat and hot water are elements of comfort that are essential in the modern, up-to-date office.

One of the greatest aids to hygienic sanitation is hot water. One of the first questions asked by the modern up-to-date physician in looking for an office is, "Have you hot water?" We answer, "Yes."

## TAX AGENT OF P. E. REPLIES TO JTBUS

Further Argument Presented  
On the Question of More  
Taxes On Stages

Los Angeles, Cal., Dec. 23, 1915.  
Editor Register: I have read with much interest the statement of the Crown Stage jitney bus owners printed in your issue of the 20th inst., in which it is stated that jitney busses are paying 60 per cent on their investment annually in taxes. There is no doubt but what some of them are paying considerable more than this, for some of the machines are practically worthless. A statement of this kind, however, only tends to belabor the issue.

The jitney bus man is performing the service of a common carrier, on a shoestring, the only investment being in the vehicle. They can run between Santa Ana and Los Angeles one day, and between Santa Ana and Long Beach the next day, for example, it being entirely optional with the owner to determine the route that is most remunerative. I take it that the Crown Stage people have taken

out licenses for each of their cars in Long Beach, Los Angeles, Newport Beach and intermediate cities for the purpose of being able to operate over first one route and then the other. This in itself is proof that the service is not dependable and that no locality can depend on service of this nature.

The very fact that the jitney bus requires no investment aside from the value of the vehicle, and makes use of the public streets and county highways, which have cost the taxpayers large sums, in competing with the electric line, which must carry a very heavy investment in private rights-of-way, tracks, yards, terminals, shops, substations, cars, etc., construct its own tracks in paved streets and pave streets on an average of 40 per cent of the entire width for the right to use these streets, pay a percentage of its gross earnings to cities, and a percentage to the state, which relieves the individual taxpayer from contributing towards the support of the state government, makes it very clear to anyone who wants to be fair that the argument that the jitney bus is paying 60 per cent of the value of the vehicle in taxes, licenses and bond premium, is not well taken.

Several states in the Union have declared the jitney busses common carriers, and the various commissions of those states have declined to issue a permit or franchise to them to operate on streets where electric lines are furnishing adequate service, and this has been done in several cities in this state. On other streets where they have been granted a permit or franchise they have required them to perform a definite service under strict regulation and to pay for the use of the streets. In other words, they have been placed on an equality with other common carriers.

Mr. Jitney Bus Man says the Pacific Electric has exclusive use of its tracks and improvements.

The Pacific Electric does not use one inch of the pavement it is required to construct in paved streets, but we are now furnishing 40 per cent of the paved streets where we have tracks, for the jitney busses and other vehicular traffic.

The tax of 54 per cent of our gross earnings which we are required to pay to the state, none has been figured out to be equivalent of the tax paid by the individual taxpayer.

The Pacific Electric has no exclusive monopoly of the business. This is proven by the fact that the jitney bus is permitted to use the streets that we have helped to improve and maintain.

The jitney bus can be compared with a peddler who comes into a city with his push-cart and places it in front of a grocery store, drug store or dry goods store, and under-sells the merchant. He can afford to do so because he has no investment nor obligation aside from his push-cart and wares, while the merchant owns his store, or pays rent therefor, carries a large stock of goods, pays a license, and has other operating expenses in the way of telephone, delivery wagons, etc., and is tied up under a long-term lease, which is equivalent to a franchise of an electric line.

I think this illustrates entirely the position of the Pacific Electric and the jitney bus, except that the city ordinance does not usually permit a peddler to compete with bona fide merchants, while some cities have permitted the jitney busses to take the cream of the business away from the electric lines, with practically no restrictions.

Yours truly,

## ALUMNI WALLOP POLY 7 TO 3 XMAS DAY

Old-timers Come Back With a  
Vengeance and Reverse  
Usual Order

The alumni football squad engaged the Polytechnic corps in battle here Saturday afternoon and proceeded to spill a most startling little surprise all over the place. The surprise came along about the last five minutes of play, after the score had remained stationary at 3 to 0 in favor of the Polytechnicians since the first quarter.

Bill Warren, he of Herculean proportions, was the particular luminary who did most of the conspiring to bewilder the Tradesmen. "Big Bill" blocked a kick. The block caused the pigskin to rebound about twenty-five feet, directly in the direction of the much desired goal for which the alumni were struggling.

The very instant that the ball rebounded things began to look exceedingly inauspicious for the Polytechnicians. But when "Big Bill" got his great bulk into motion and started to pursue the bounding ball, Polytechnic stock dropped about fifty per cent. Along about that time the sidelines were jammed with a clamoring mob of rooters, suddenly come to life after a period of gloom that had lasted during practically the entire fracas.

And when the giant Warren pounced upon the ball and lugged it to the goal for a touchdown, closely pursued by a wild-eyed aggregation of startled Tradesmen, the stuff literally "was off." The cheers for the war-scarred alumni still were reverberating when the weary gladiators had departed from the field after delivering the usual cheers for the vanquished.

When "Big Bill" made that aforesaid touchdown, and Grouard kicked goal, making the score 7 to 3, the alumni and their supporters on the sidelines had reason to rejoice, for it was the first time within the knowledge of local followers of the ancient game that the high schoolers were defeated by an alumni team.

There were several startling features of the game. One was "Shorty Smith," whose grit and ability to run the ball ahead were almost uncanny. Another feature was the great amount of wind and stamina that the alumni exhibited. Not once was there a request for "time out." In fact, the only time that the proceedings were at all halted was when some puffing Polytechnic battler found it necessary to tie a shoe lace or to adjust some other portion of his accoutrements of war.

There were few casualties. The alumni, strangely, and reversing the usual order, escaped without a sacrifice. One or two of the enemy were damaged to a certain extent, but nothing to speak of in the way of accidents occurred.

At no time during the obsequies were the alumni in much danger of being scored on, with the exception of during the first quarter when the Polytechnicians became somewhat obstreperous on several occasions. The three points in this period were acquired by the Mechanics by a place kick.

As a whole, the game was a fast one, and evenly matched. The ball stayed near the center of the gridiron all through, with the exception of the said first quarter.

Here is the way the two teams lined up: Alumni, Lantz, L. E.; Raitt, L. T.; McPhee, L. G.; Warren, C.; Shallenberg, R. G.; Grouard, R. T.; Burkett, R. E.; "Spud" Morrison, Q.; "Dutch" Holzgrate, F.; Smith, Plavan, H.; Oertly, Reeves, Walters, subs. Polytechnic, "Little Spud" Morrison, R. E.; Irvine, R. T.; Marsiles, R. G.; Stewart, C.; Goodpasture, L. G.; Best, L. T.; Sproule, L. E.; Covington, Q.; McClain, R. H.; Hamaker, F.; Brown, L. H.; Davis substituted for Sproule.

## THE BEST PROOF

Given By a Santa Ana Citizen

Doan's Kidney Pills were used—they brought benefit.

The story was told to Santa Ana residents. Time has strengthened the evidence.

Has proven the result lasting. The testimony is home testimony—

The proof convincing. It can be investigated by Santa Ana residents.

F. L. Sexton, retired farmer, 1129 West Second street, Santa Ana, says: "Off and on I was troubled by a dull pain in the small of my back. I thought the complaint was due to disordered kidneys. When I saw Doan's Kidney Pills recommended, I tried them. I soon got relief. Another of my family has also had splendid results from Doan's Kidney Pills."

Over three years later Mr. Sexton said: "If I should ever again have need of a kidney medicine, I would take Doan's Kidney Pills. They cured me several years ago and I have had no occasion to use them since, though I am past 88 years old."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Sexton has twice publicly recommended.—Advertisement.

## JOYOUS CHRISTMAS IS ENDED IN SADNESS BY DEATH OF A VISITOR

J. A. Drake of Compton, Formerly of This City, Died  
Here Suddenly

Death brought sadness to a joyous Christmas celebration in Santa Ana when J. A. Drake of Compton died Sunday morning at 1 o'clock at the home of Officer C. I. Pond, 832 Garfield street.

Mr. Drake was a brother-in-law of Mrs. Pond. For years it has been the custom of the Pond family to spend Thanksgiving at the Drake home, and for Mr. and Mrs. Drake to be with their relatives here on Christmas. Mr. and Mrs. Compton took Christmas dinner at the Pond home, and Saturday evening they joined in a Christmas tree celebration at the home of George Campbell, 808 Garfield. Mr. Drake was apparently in good health and fine spirits. About 11 o'clock at the Pond home as he and Officer Pond were talking, Mr. Drake was suddenly stricken with paralysis. He was unconscious from that moment until he died two hours later.

Mr. Drake was a shoemaker. He formerly had a shop here, leaving Santa Ana for Compton about ten years ago.

## -the ONLY car at its price with 40 h.p.

This new Studebaker 4-cylinder car absolutely dominates its field. It has set up new Standards of value for 4-cylinder cars. It has vastly increased the purchasing power of each dollar. It has given MORE power, MORE comforts and size, MORE quality for every dollar of its price than any other car ever offered in the history of the industry.

This Studebaker at \$885 is the ONLY 4-cylinder, 7-passenger car with a 3 1/2-inch bore x 5-inch stroke, FORTY Horse Power motor that has ever been offered in America or Europe for less than \$1000. In POWER and flexibility it equals most of the Sixes now on the market. And in quality it stands ALONE. For while the price has been reduced from \$985 to \$885, the car itself has been GREATLY INCREASED in power, size and quality, and wherever materials have been changed, BETTER materials have been used.

We urge every man in Santa Ana who expects to buy a car, to see this Studebaker FIRST. For no other 4-cylinder car, offers such dollar-for-dollar value.

## TWENTY ACRE FARMS TOO SMALL

The ten and twenty-acre farms so numerous sold in recent years are not as a rule giving a living income. Such is the conclusion forced by the data thus far gathered by the Division of Rural Institutions of the University of California. Many of these small holdings have been abandoned, and many of the farmers still living on such small areas are renting additional land, their success depending upon this. The consensus of opinion seems to be that for the production of ordinary farm crops forty acres is better than a smaller area.

Inquiries have also been directed to ascertain the amount of the settlers' capital and the expenditure needed during the first five years to bring the land into full production. The majority of settlers thus far interviewed have had less capital than was necessary to make settlement a safe and successful venture, and they have had great difficulty in borrowing money, even at high rates of interest.

This data has been utilized by the Rural Credits Commission, of which Prof. Elwood Mead is a member, in determining the direction and scope of its investigations.

## SCHOOL NEWS

The last number of the Journal of Education contains an article, by a school superintendent, telling about the use he has made of newspaper publicity in his field. He furnishes news items regularly, reporting original work or any specially good results, also calling attention to defects in buildings and equipment. He believes that this policy has increased school attendance and created public sentiment favorable to liberal appropriations.

The schools are a great center of news events. In them nearly a fourth of the population is digging for an education. Local history is being made there. Yet little of what happens gets into the newspapers.

Some people may say that school

work is routine, not newsy, the same thing week after week. Yet school people are constantly trying out new ideas. It would probably be the general consensus of newspaper people, that when school authorities are asked if there is any news, they are apt not to be able to think of any.

A school superintendent was some years ago asked for an interview on some original methods he was trying out. He courteously asked to be excused. He felt that school work should be kept out of sight, that if the public were told too much they would criticize. This official some time later lost his position. He had done nothing to build up public sentiment, and the politicians had him at their mercy.

There are school superintendents who call in the reporters every week and explain for public use everything they are trying to do. One man known to the writer who followed that plan is now in a very conspicuous position in New York, whose opinions are read and quoted all over the country. It is good policy.

The contrast between these points of view is worth the study of educators. The schools need an active and interested public sentiment. The more the people know of what is being done, the more sympathetic will be the popular attitude, and the easier school taxes will be raised.

The Gary Schools  
Editor Register—There are being industriously circulated at the present time copies of a rabid anti-catholic publication called "The Menace," containing bitter attacks against the Gary schools and the superintendent, William A. Wirt. Mr. Wirt, as most people know, is employed by the New York City Board of Education to reorganize certain of the schools of that city on the Gary plan.

The attack of "The Menace" is based on the assertion that Mr. Wirt is a cousin of Mayor Mitchell, and that both of these men are Catholics. In the Gary schools, Mr. Wirt has adopted a certain plan of religious instruction. Any church in Gary may organize a class for this purpose and the child who attends will receive credit in his school work. "The Menace" declares that the population of Gary is very largely foreign born and hence Catholic and that the Catholics are practically the only ones taking advantage of the privilege. "The Menace" further sees in this a gigantic conspiracy on the part of these two Catholic cousins, Mayor Mitchell and Mr. Wirt, to deliver the schools of New York City over to the Catholics.

One of the heads of departments in the Gary schools is an old friend of mine, Prof. John Alfred White. Mr. White has been connected with the Gary schools about eight years, and had charge of the Gary exhibit at the San Francisco exposition last summer. I wrote to Mr. White in regard to this charge against Mr. Wirt, and I think his reply will be of interest to the general public. Here is what he says:

"Mr. Wirt is not employed to Garyize the New York schools because he is a relative of anyone. Mr. Wirt is not in any way related to Mayor Mitchell of New York, and there is no family connection whatsoever. Mr. Wirt is of German descent, while Mayor Mitchell is of Irish descent.

"Again, Mr. Wirt is not a Catholic, never has been a Catholic, and so far as I know he has no relatives who are Catholics. He is a member of the Methodist church and a graduate of a Methodist college. The article in 'The Menace' is a silly exaggeration—ninety-nine per cent of the stuff is downright falsehood and the remainder is simply not true.

"The Gary plan of religious instruction is only an arrangement of the daily program whereby the children, upon request of the parents, are excused from the school at any hour that does not interfere with their regular work, to attend the church of their choice for whatever religious instruction the church cares to provide. The schools have nothing to do with the teaching in any way whatsoever. Not one cent of school or of other public money goes to pay the teachers of religious subjects. In some cases the pastors of the church with volunteer helpers do the teaching. In other cases the church denomination at large pays a teacher to come here and give all his time to religious instruction.

"In most cases the Catholics had had their own schools from the beginning, and they still continue their schools. The Catholic schools are no more connected with the public schools than they are in any other city. In one case, I think, a small Catholic church of some foreign nationality provided religious instruction for the children of the church, the same as the Protestant churches are doing. With this exception the church day schools are all Protestant. The Protestants are the only ones

who are supporting the plan enthusiastically, and the various Protestant denominations all over the country are watching the working out of the plan here with a view to its possibilities elsewhere. 'The Menace' in this case did just what it has always been doing, namely, making mountains out of ant hills, except in this case there was not even the ant hill to start with!"

EDWARD M. NEALLEY.

## AMUSEMENTS

"The Wonderful Adventure" At the Princess Theater Tonight

In this, one of the most startling and intense William Fox photoplays Sunday ever released, William Farnum, America's greatest actor, appears in a dual role.

As John Demarest, a wealthy New York contractor and business man, he falls victim to the wiles of "Mazora," a beautiful adventuress.

Through her he becomes addicted to the use of drugs. He neglects his wife and child. His business is on the verge of ruin. At this stage of his affairs, he meets John Stanley (also played by Farnum), a western mining engineer, and his exact counterpart in face and figure. Demarest, half insane through the use of Mazora's drugs, conceives the fantastic idea of having this man, so wonderfully like him in every way, take his place in the world.

Stanley, though he revolts at such an unnatural deception, is penniless and a stranger in New York. He is finally persuaded. Demarest drops in to oblivion and Stanley picks up the scattered threads of his life, both at home and in business. The inevitable complication ensues. Demarest's wife and child, while realizing that a change has taken place, do not suspect that the husband and father is an entirely different man.

Stanley, on his part, while he tries to maintain Demarest's attitude of coldness and neglect, has fallen deeply in love with his "wife." How the vexed problem is finally solved makes a photoplay romance of entrancing power and thrilling interest.

## AT DAY NURSERY

Thoughtful Friends Provide Many Good Things For Occupants of Little Home

Between forty and fifty children gathered at the Day Nursery on Friday afternoon for the annual Christmas celebration. Besides the children who were grouped around the tree there was quite a sprinkling of guests in the background—a number of mothers of the children, several Ebell people, including the president, Mrs. C. F. Crose, and members of the nursery committee and one or two other friends.

It is hard to say who enjoyed the afternoon more, the children or the grown-ups. The little folks under the direction of Mrs. Jones, the matron, gave an interesting program of songs and recitations. Then Mr. Schrock, pastor of the Congregational church, told the children a true story of a Christmas in America a long time ago. Mr. Schrock has a way of interesting children and was at his best, judging from the interest and attention shown. At the conclusion of the program each child was presented with candy, an apple and an orange and gifts of dolls, knives, and other toys from the tree.

One beautiful feature of the celebration was the part taken by children outside of the nursery. The pupils of the Lincoln school contributed \$10 to make some other children happy, and several little girls dressed dolls and brought them there days before to be ready. It is impossible to mention all the lovely things that were done by the kind-hearted people of Santa Ana for the nursery, but they will be included in the regular December report to be published soon.

Meantime the nursery children will be happy with their several individual toys and with the toboggan slide, the Ebb's gift to them all.

## Courtesy to Manager

The little lady had been honored with two birthday cakes, one decorated with white and red candles and the other with birthday greetings done in pink. The favors were little Santa Clauses going down chimneys and carrying ginger cookies.

Those present were Barbara and Frances Babson, Ida Boner, Mary Fine, Frances Hudry, Ruth and Lillian Bishop, Margaret Hutchins, Pauline Riley, James Snow, Evelyn Lawrence and Virginia Walbridge; Mrs. J. ## IOWANS TO BANQUET

The officers of the Iowa Association of Southern California who are arranging for the annual Iowa Admission day dinner expect the best attendance they have ever had when they sit down to the table at Christophers' new cafe, 741 South Broadway, Los Angeles, Tuesday eve, December 28. The price, 60 cents per plate, makes it possible for all who care to do so to attend. If possible to do so let the secretary, C. H. Parsons, California Savings Bank, know in advance, but do not stay away if you cannot send word.

Judge Fred H. Taft of Santa Monica will preside as the president of the association. Dr. Matt S. Hughes, one of the best known orators of the Southland, will be the speaker of the evening, and this assures a fine address. The social hour is from 6 to 7 and all are urged to come early for that. Dinner will be served at 7 o'clock sharp, and the program will follow. This will be short enough so there may be time for further social intercourse with the fellow Iowans. This invitation is to all the Hawkeyes, both men and women, and all are urged to be present.

# LUXURIOUS AUTO LINE FROM SANTA ANA TO LOS ANGELES

R. M. Brinkerhoff, who has spent most of his life hunting for trouble (having been in the employ of the United States Telephone Company for many years) has now embarked upon the stormy career of an Auto stage driver.

"Brink," as he is familiarly known to a large circle of friends and acquaintances, has established an auto service between Santa Ana and Los Angeles. It is not a jitney bus in the sense that that term is usually applied, for the car that will be at the service of Mr. Brinkerhoff's patrons is a Paige "Six"—a commodious, comfortable automobile.

"Brink's" schedule includes three round trips daily, except Sunday, when the car will be used for pleasure parties and special trips. The first car on the regular daily schedule leaves Santa Ana at 7 a. m., and the last one at 5 p. m. The first car leaves Los Angeles for Santa Ana at 9:30 a. m., and the last one at 7 p. m. The Los Angeles terminal will be at the corner of Eighth and Los Angeles streets, and the Santa Ana station will be at the Cadillac garage.

Those who know Brinkerhoff's careful, sober and industrious habits will have no hesitation in entrusting their persons and property to his care, and in predicting for him success in his new line of endeavor.

# CALIFORNIA'S TREMENDOUS VARIED RESOURCES PRESENTED IN STRIKING SIMILE

## STATE TREASURER PREDICTS AN ERA OF PROSPERITY AND TELLS OF COST OF STATE GOVERNMENT

State Treasury Pays Out \$270 a Minute to Meet Expenses Of State—Every Financial Indication Proclaims the Coming of Prosperity—Says Friend William Richardson, State Treasurer, In Address at Big Banquet of Berkeley Chamber of Commerce.

That prosperity is marching westward, that every indication points to good times, that California has more available cash than ever before in its history, that the banks of the state are safe and sound, and that business men should prepare for the boom in 1916, were the statements of State Treasurer Friend W. Richardson at the big annual banquet of the Berkeley Chamber of Commerce in response to the toast "Our State."

In responding to the toast, the state treasurer said:

"A reasonable amount of pride is a valuable asset for an individual. Pride in one's city, one's state and one's country adds to human happiness and promotes good citizenship. The man who is proud of his country will strive to make his country better. Civic pride has helped in the building of beautiful cities and in the steady betterment of municipal government. State pride has caused men to strive to develop the best in their state."

**Look and Feel Clean, Sweet and Fresh Every Day**

Drink a glass of real hot water before breakfast to wash out poisons.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Polks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatism; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store which will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

"The amount of the bonded debt, \$240,000,000, staggers the imagination, and like all large things can be comprehended only by comparison. The bonded debt, when compared with the total assessed valuation of the state shows that it amounts to but seven per cent. To make it still plainer, suppose a business valued at \$10,000 carries a debt of \$700. Then the business carries the same proportion of debt as does the state, the counties, the cities, and the school districts of the state."

"Thus, although the total bonded debt appears great, it is comparatively small and is fully justified by the necessity for public highways, public buildings, school houses, and civic, county and state enterprises."

"I might go into state finances further, but I fear to burden you with too many figures, and figures are at best hard to digest, especially after a sumptuous banquet when good stories and wit are more appreciated. 'Our State' is in good financial condition and is improving in every direction. A great system of state highways will soon be completed, costing \$18,000,000. The people last year voted \$1,800,000 bonds, which have already been sold, for the erection of buildings at the state university. At the same time \$1,000,000 was voted for a state building at San Francisco, and \$3,000,000 for additional buildings at Sacramento. Other state buildings, additions and improvements are being provided."

**Coming of Prosperity.**  
"As business men at a business gathering, you will pardon a business prophesy. California, like other states, has had a number of lean years. During those years business men have struggled hard to keep their heads above water and have sometimes sweat blood in order to raise money to pay their taxes and other obligations. But let me predict that the lean years are over. With the advent of 1916, 'Our State' will have a period of fat years, and it behooves every business man to prepare for the march of prosperity is westward. Already business is booming all over the East, and in a short time it will be here. Every financial indication proclaims prosperity."

"This prosperity will remain regardless of the continuation of the world's war. If the war ceases soon, as we all hope it will, the prosperity of this country will continue. Never in the history of California has there been so much available cash. Never have the banks of the state been so sound and had so much money on hand. Every indication points to good times. You business men of Berkeley are well prepared to grasp the advantage of an era of good times. Through the lean years you have been trained in caution and your courage has been thoroughly tested. With the coming of the fat years, you will be ready to do the increased business which will come to 'Our State.'"

**COLDS NEED ATTENTION**  
Internal throat and chest troubles produce inflammation, irritation, swelling or soreness and unless checked at once, are likely to lead to serious trouble. Caught in time Dr. Bell's Pine-Tar-Honey loosens the phlegm and destroys the germs which have settled in the throat or nose. It is soothing and healing. Pine is antiseptic; honey is soothing—both together possess excellent medicinal qualities for fighting colds. Insist on Dr. Bell's Pine-Tar-Honey. 25c. all Druggists.

**Cost of State Government**  
"California has an assessed valuation of \$3,311,446,744. These figures, you will notice, go into many millions and are difficult to comprehend. During the first eleven months of this year, the state treasury paid out \$32,905,173.95, making an average of nearly \$3,000,000 per month, or \$115,000 each day the office was open. This means \$16,400 an hour, or over \$270 a minute. When you think of \$270 then you have an amount which all of us can comprehend. Then think of \$270 being paid out by the state every minute that the state treasury is open, and you form an idea of the great wealth and resources of the state and what it costs to keep the wheels of state government running. While this great sum of money is going out each minute a similar amount must come into the treasury to keep up the state's cash balance."

"The average available cash balance is now about \$12,000,000, of which an average of \$11,000,000 is deposited in state banks subject to call when needed. This \$11,000,000 deposited in banks yields the state about \$275,000 per year in interest, and is secured by approved bonds. How well this \$11,000,000 is distributed through the state is shown by the fact that the state has deposits in 285 banks, covering 170 different cities and towns."

"The state has \$11,748,969.92 invested in bonds drawing from four to six per cent interest. Of this amount \$7,597,657.42 is invested for the benefit of the school fund. The tax placed upon the corporations for the present fiscal year amounted to \$15,036,700, and of this amount \$8,000,000 has already been collected."

**Bonded Indebtedness**  
"The bonded indebtedness of the state is \$30,679,500. The bonded indebtedness of the fifty-eight counties of the state is \$62,414,000. The bonded debt of the cities with the exception of two small cities is \$129,963,164, and the bonded debt of the school and other districts, with five exceptions, is \$17,900,862. The total of state, county, city and district indebtedness exceeds \$240,000,000 and the rate of interest will average 4 1/2 per cent. The interest amounts to approximately

\$14,400,000 a year or \$950,000 a month. To make it still plainer, reduce the amount to days and it shows that the state, the counties, the cities, and the districts are paying out in interest on their bonds about \$32,000 a day. The bonds run an average of thirty years and hence the amount of interest paid will, before the maturity of the bonds, exceed the principal."

"The amount of the bonded debt, \$240,000,000, staggers the imagination, and like all large things can be comprehended only by comparison. The bonded debt, when compared with the total assessed valuation of the state shows that it amounts to but seven per cent. To make it still plainer, suppose a business valued at \$10,000 carries a debt of \$700. from the worries, expenses and litigation incidental to irrigation if you buy land in the Templeton-Paso Robles District.

Think of the advantages to be had in growing fruits and nuts under California conditions without irrigation; no installation or maintenance expense of a water system, no costly irrigating, all of which means a lower cost of production, finer flavored fruit with better keeping and shipping quality.

This locality has been producing a very superior quality of Apples, Pears, Prunes, Cherries, Grapes, Almonds and Walnuts for years without irrigation; but only in the last few years has any particular attention been given to the development of the fruit and nut industry. There are many reasons why this locality is coming to the front so rapidly, why it will in the near future be one of the richest, most famous districts in this state.

If you are a prospective land buyer you are not doing yourself justice unless you give the Templeton-Paso Robles District very serious consideration. Many comfortable little fortunes will be made there in the next few years—get into the game now, it's a pleasant place to reside, fine climate, beautiful surroundings, good social and market conditions. # AT THE COURTHOUSE DROPS APPEAL, GOES TO JAIL

Young Charleston Allowed to Spend Christmas With His Mother Before Starting

Roy Charleston of Anaheim, convicted of grand larceny, is to enter the Preston School of Industry at once. His attorneys, E. C. Peck and H. G. Ames, have dropped their appeal, and Charleston is to serve his sentence, which will end when he is 21 years old on April 25, 1917.

Charleston was convicted of stealing furniture from Albert Graham, a furniture dealer of Anaheim, for whom Charleston was a clerk. The defense put up a hard fight, but the jury brought in a verdict of guilty. Had Charleston been sentenced to San Quentin, it is probable that the appeal would have been taken.

Friday afternoon when the attorney notified Judge West of the decision to drop the appeal, they asked that Charleston be allowed to spend Christmas at home with his mother in Anaheim. The attorneys said that they would vouch for Charleston's appearance at the sheriff's office today, or would procure a bond. The judge granted the permission without requiring a bond.

caused worry. At times she seems to be in a slight stupor. She is suffering either from shock or some pressure on the brain or nerves. She is unable to articulate.

H. H. Carpenter, only son of the man who was killed and father of the boy, arrived here Friday night about 6 o'clock, after receiving word of the accident by telephone from Frank Biggs.

Carpenter lived in Cleveland, O., many years, where he was vice-president of the Acme Machine Company. When a boy he ran a blacksmith shop for his father, who was in the Union army. Carpenter invented a number of pieces of machinery that revolutionized the blacksmith trade. He retired five years ago and since then until recently lived at the Westlake Hotel in Los Angeles.

## Machine Turtles; Two Slightly Injured

An auto driven by C. F. Sammann of 3017 South Grand avenue, Los Angeles, turned turtle on the state highway south of Irvine Saturday morning. Of five in the automobile, two only were injured, and their injuries were not serious.

Sammann was driving, bound for San Diego with his three daughters and one son with him. According to statements made to Policemen Pond and Joseph Ryan by Sammann, the machine was going about twenty miles an hour when suddenly it went over, and came to a stop with the wheels up. The top saved the occupants from being crushed. They extricated themselves. The son, aged 14, had his face cut and bruised, and one of the daughters, aged about 26, received a blow on the top of the head. Sammann had one shoulder slightly bruised.

Sammann said that his steering gear may have gone wrong, or one wheel may have gotten over the edge of the paved strip, struck soft dirt, and caused the machine to go over.

## Motorcycle Lands On Rail, Two Are Hurt

At the Irvine crossing yesterday morning at 3 o'clock a motorcycle was wrecked, and two young men from San Diego narrowly escaped death. That one of them is alive is a marvel, and the other is equally unable to explain how he escaped more serious injury.

On the motorcycle was Fletcher Pattison, driver of a Pickwick stage at San Diego, and George Gillis, Pattison driving, bound for Los Angeles. They approached the turn too fast, and in attempting to make it went off on the railroad tracks to the north of the crossing.

Pattison was thrown face first against the top of a rail, and slid several feet before he came to a stop, unconscious. Gillis was able to set up a yell, that quickly got Harry Spencer, who lives near the crossing, out of bed and to their aid. Gillis had his right ankle rendered helpless by a sprain and bruise. Pattison was unconscious.

Spencer got the two young men into an automobile, and took them to the County Hospital, where Dr. Zaiser attended them. Pattison did not recover consciousness until after he was in bed at the hospital. It developed that his injuries were slight. His forehead was badly bruised, and his nose was cut, and one hip was bruised. The two left the hospital and went on to Los Angeles before noon yesterday.

## TREAT CATARRH BY NATURE'S METHOD

Every Breath of Hymel Carries Healing Medicated Air to the Infected Membrane

Nearly every one who has catarrh knows how foolish it is to try and cure it with sprays, lotions, and the like. Temporary relief may be given, but a cure seldom comes.

Until recently your physician would probably have said the only way to help catarrh would be to have a change of climate; but now with a simple preparation called Hymel you can carry a health-giving climate in your vest pocket and by breathing it a few minutes four times a day successfully treat yourself.

The complete Hymel outfit is inexpensive and consists of an inhaler that can be carried in the vest pocket, a medicine dropper and a bottle of Hymel. The inhaler lasts a life time, and if one bottle does not give permanent relief, an extra bottle of Hymel can be obtained at any time for a trifling sum. It is more economical than all remedies advertised for the cure of catarrh, and is the only treatment known to us that follows nature in her method of treating diseases of the respiratory organs.

Rowley Drug Co. has sold a great many Hymel outfits and the more they sell, the more perfectly convinced they are that they are perfectly safe in guaranteeing to refund the money if Hymel does not relieve.—Advertisement.

## WARNINGS IN QUAKER CITY AS GRIPPE RAGES

PHILADELPHIA, Dec. 24.—The death rate from the epidemic of la grippe now sweeping the state has been so high that Samuel G. Dixon, state health commissioner, issued a statement at Harrisburg last night calling attention to the seriousness of the situation and cautioning the public that if the disease is to be avoided "sacrifices must be made."

"Keep out of crowded places," Dr. Dixon says, "as one person having the grippe may give it to a carload of passengers."

## NOT FOR A NICKEL

It was in a country store in Arkansas. A one-gallon customer drifted in. "Gimme a nickel's worth of asafetida." The clerk poured some asafetida in a paper bag and pushed it across the counter.

"Charge it," drawled the customer. "Honeyfunktul."

"Take it," said the clerk. "I would not write asafetida and Honeyfunktul for five cents."—Everybody's.
